

Stringg Beann

Gg

Thin & Simple

Stringg Beann is a modern sans serif typeface designed by Kyle Gurtner in 2016. The Stringg Beann typeface is designed and intended for headline text. However it may be used for body copy as shown here. You may want to open up the kerning a tich if you are using Stringg Beann for body copy.

The Curved angles and tall skinny characters are what gives Stringg Beann well, a sting bean feel so to speak. This font is free of purchase and if you are wanting a copy simply contact Kyle himself and he will send you the file. Kyle does plan on making a few more varations for the font Stringg Beann so subscribe to his blog and stay up to date on the latest news and updates.
